

Vallourec launches Behub-e, a marketplace dedicated to buyers and sellers in the energy and industrial markets

Meudon (France), November 4, 2021 – Today, Vallourec announces the launch of its global innovative marketplace platform providing an online sales channel for sellers and buyers in the energy and industrial markets.

Developed in close collaboration with customers and suppliers in the energy and industrial markets, Behub-e, a brand of Vallourec Group, will provide an innovative online procurement channel hosting a wide range of seller's equipment, consumables, and related services for sale.

It will allow trusted sellers to offer their surplus production and product inventory to a wide base of trusted buyers in the industry, who in turn will be able to reduce their procurement costs and improve the circular economy.

The Behub-e site is online and already available at this time, to sellers at behub-e.com to upload their product inventory. The service will become available to buyers in January 2022.
