TALLY**VISION**

## OPTIMIZE RIG OPERATIONS THROUGH DIGITALIZATION

TallyVision improves your pipe running operations thanks to the traceability of each pipe. This digital solution ensures that pipes and accessories are run according to the planned sequence and proposes the best updated sequence in case of need. It reduces non-productive rig time, eliminates human error, and offers rig crew valuable operational KPIs such as time versus depth.

HOW DOES IT WORK?

1. Rig receipt is faster, safer and more accurate

2. App enables easy digital pre-tally management

3. Real-time visibility on running operations

4. Job portal with KPIs, achieved torque charts and run-in-hole tally
