ECONOMIC AND RELIABLE LARGE DIAMETER CONNECTIONS

— THREADED
& COUPLED

— FROM 14"
TO 26"

BIG OMEGA®

QUICK AND ROBUST,
DELIVERING VALUE
FOR MONEY FROM THE
SURFACE OF THE WELL.

BIG OMEGA® is the industry-trusted connection of choice for large diameter casing applications, both onshore and offshore. It offers trouble-free running operations thanks to its easy-to-run and liquid-tight thread profile.

FEATURES

- Rugged thread design, no risk of cross threading
- Deep stabbing
- Quick and trouble-free running
- Internal shoulder (-IS) available as option
- Easy to run alternative to basic weld-on connectors

PERFORMANCE

- Excellent structural performance
- Tension performance adapted to the pipe body

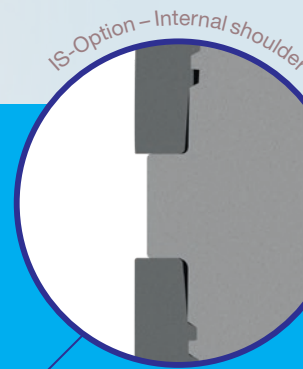

- 70% PBYS (Pipe Body Yield Strength) axial compression (-IS option: 100%)
- Up to 100% MIYP (Minimum Internal Yield Pressure) of pipe body

APPLICATIONS

- Onshore and Offshore
- Conductor casing
- Surface casing
- Intermediate casing
- Drive pipe

PRODUCT RANGE

Pipe:	Seamless and welded
OD*:	From 14" to 26"
Grades:	API 5CT, API 5L and Vallourec proprietary grades
YS:	From 55 ksi to 125 ksi

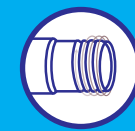

RELIABLE RUNNING

— Quick and reliable running, no cross threading or risk of over-torque.

LIQUID TIGHT

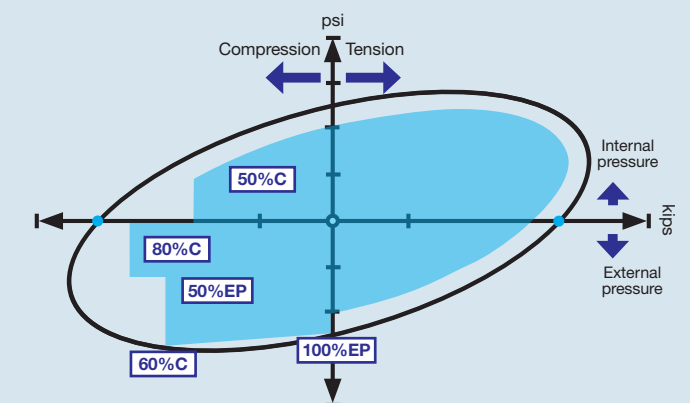

— Lab tested, field proven, better than buttress.

EASY MACHINING

— Cut and re-thread operations are easy to perform.

TROUBLE-FREE RUNNING FOR OVER 30 YEARS

More than 30 years have gone by since the delivery of the first casing string with BIG OMEGA® connections, an 18 5/8" string which was run in the Khuff wells near Abu Dhabi, U.A.E. Since then, internationally proven and accepted, BIG OMEGA® is extensively used by major oil companies worldwide.
